

Delhi Public School Indore

Dear Parents,

The year has been a kaleidoscope of events, with achievements in many fields - academic, cultural and sports. The excellent and world renowned Delhi Public School Society's educational system, infrastructure, supportive and talented staff and myriad avenues for the young child to identify and hone his/her talent and most important - parents co-operation in all aspects of schooling - all together have culminated in our students surging ahead and developing into confident, intelligent, creative, responsible individuals.

DPS Indore integrates rigorous academic programmes with nurturing of the young students. To prepare learners for success in the digital world and global economy, we have generated innovative education practices and new modes for learning.

We plan to integrate technology into every area of the school, namely:-

- curriculum delivery
- office support system
- assessment
- parental collaboration and communication
- content creation and sharing

DPS Indore introduces

EDUCOMP SMARTCLASS™ in all classes- Pre-Nursery to XII, from session 2012-2013

WORLD'S LARGEST REPOSITORY OF DIGITAL SYLLABUS

**Evolving education with
Class Transformation System (CTS)**

All class rooms (Pre-Nursery to Class XII) will have the facilities of
**Interactive Boards, Computer, speakers,
Projector & Remote Control**

Laying the foundation of excellence

Smart Class CTS is the largest initiative of its kind anywhere in the world, bringing each aspect of learning under a single console, wherein teachers can access resources that enhance the teaching pedagogy and students can learn every aspect of every subject in the curriculum. The Class Transformation System (CTS) encompasses all facets of teaching-learning process and is an inseparable tool that ensures education with participation and conceptual learning. Each class room is equipped with Educomp Interactive Boards, projector, one touch switch, remote control.

With the installation of Educomp, online web portal facility also is available to parents, teachers and students, with features like;

- Unique login ID for teachers, students and parents.
- Students get access to Educomp's repository of contents like educational videos, tests and educational games, even at home.
- Students can access assignments on the net, even at home
- For optimum use of this technology, special training workshops for teachers are being organised.
- We will exhibit our responsibility to the environment by decreasing consumption of paper.
- For students to learn how to live in harmony in society, be responsible and aware citizens, even more emphasis will be given to developing students' attitudes to peers and adults, value systems such as being courteous, helpful, respectful, peace loving and open minded, which already is an integral part of the CCE system.

Future Planning

I. Infrastructure

Many projects have been planned which will be introduced in a phased manner:-

- Phase - I:
The Music, Art and Dance Department (M.A.D.) will get a complete make over, with a special Block dedicated to Music, Art and Dance activities.
- Phase - II:
A separate block for Pre-primary and classes I, II.
- Phase - III:
A hostel for students staying far away from Indore.
- Phase - IV:
Development of parking and main gate entrance area.
- Transport:
Phasing out of old buses and replacing with new ones.

II. Co-Curricular Activities:

- Weekly activities will be conducted separately for classes II to V every Thursday and classes VI to VIII - every Wednesday.
- Martial Arts will be introduced as a weekly activity for classes III to VIII.
- For morning and afternoon games - special games route buses will ply.

We take this opportunity to express our heart-felt appreciation of your continued support and co-operation in all our endeavours.

Regards,

Principal
